The Original Sweetener

Native North Americans were the first to recognize

Pure Maple Syrup as a source of nutrition and energy. Researchers have since documented that maple syrup has a higher nutritional value than all other common sweeteners. ✓

Other Health Considerations

In addition to its remarkable nutritional content, researchers have documented that *Maple Syrup* contains numerous phenolic compounds, commonly found in plants and in agricultural products such as berries, tea, red wine and flax seed. Some of these compounds may benefit human health in significant ways. For example, researchers have documented the natural presence of

abscisic acid (ABA) in *Maple Syrup*, a compound thought to stimulate insulin release by the pancreas.

Use of *Pure Maple Syrup* as an alternative to refined sugar can also add to the antioxidant content of the diet, similar to replacing refined grains with whole grains.

With its wholesome, natural flavour *Pure Maple Syrup* has one of the lowest calorie levels of common sweeteners.

Maple Syrup is also a natural product with no additives or preservatives.
